

ATA article for April 2019.

Greetings from Ontario, Canada.

As I write this article I have been following the online results from the Spring Grand in Tucson. It has been quite cold and icy here in Ontario. When I think of Arizona, I don't think of snow – but that is exactly what I am told the shooters had during the early days of the event. I expect that the conditions impacted on scores but notwithstanding there were some outstanding results – well done. Glad to see many Ontario shooters competing.

By the time you read this article in April, Ontario shooters will be getting some practice in and readying for another registered trap season. I want to remind ATA clubs and shooters that each club has been sent a number of free one-year memberships for first time shooters. Use them. Introduce people to our sport – the challenges, the rewards and the comradery of registered shooting is one of the best kept secrets so share it!

Paul Shaw,
Ontario Delegate
